

I am a listener to K-LOVE on FM91.3 in San Antonio, TX. K-LOVE is an important part of my day and meets needs that no other broadcast can. Friends and Christians all over the US listen to this broadcast and we feel "connected" by the opportunity to listen to the same station even though we are in different places. I have lived in several places during my military career and was always comforted to find a K-LOVE translator wherever I travelled in the US to ensure that I receive the same quality, consistent Christian program no matter where I am. Several years ago I found K-LOVE when I was at a low point in my life, facing a divorce I didn't want with 2 small children. K-LOVE's encouraging, upbeat message helped lift me from the depths of despair and find hope through my Christian faith. Now my kids point out the K-LOVE bumper stickers to me all over town. Please don't take any action that would jeopardize my, and others', access to this programming. I feel it would be detrimental to the entire community. Thank you for your consideration.
